## Professional Summary

Entry-level front-end developer with strong skills in JavaScript, TypeScript, React, HTML, and CSS, experienced in building responsive, scalable web applications from development to deployment. Proficient in API integration, modern frameworks, and writing clean, maintainable code. Eager to apply technical expertise to build high-quality products while growing within a collaborative engineering team.

## Technical Skills

- NextJS
- React
- HTML, CSS & JavaScript
- Typescript
- Responsive Design
- Accessibility
- Firebase
- Github

## Personal Projects

**Lumina Skin | Website:** <https://luminaco.skin/>

- Developed and maintained a responsive e-commerce website focused on clean UI, accessibility, and performance.
- Implemented reusable front-end components to ensure visual consistency across pages and ensured visual consistency across devices.
- Designed and implemented backend admin functionality to support business operations and content management.

**Mizzie | GitHub:** <https://github.com/MoraRosa/Miss-Buzzie>

- Built an interactive front-end web application using HTML, CSS, and JavaScript.
- Structured modular, maintainable code and managed version control with GitHub.
- Practiced version control and collaborative workflows using Git and GitHub.

**Momentum | A productivity mobile application :** <https://morarosa.github.io/Momentum/>

- Built a **responsive browser “dashboard”-style productivity app** using HTML, CSS, and JavaScript, featuring dynamic elements such as the current time display, daily focus input, and customizable quick links for enhanced usability.
- Implemented **interactive UI logic** (e.g., task additions/completions, local data handling) to support smooth user interaction and a curated user experience in a single-page static app.

## Work Experience

**Communications & Project Coordinator | Artless Collective – Yellowknife, NWT | May 2024 – Present**

- Coordinated cross-functional teams to deliver digital projects on time, managing timelines, documentation, and stakeholder communication.
- Streamlined workflows and SOPs, improving team efficiency by 20% and strengthening alignment between design and technical execution.

**Project Coordinator | Rally Fin LTD – Calgary, AB | Jan 2024 – May 2024**

- Supported planning and execution of technical and interactive projects.
- Coordinated procurement, delivery, and installation of digital and AV systems.

# Hikmah Adepoju

Calgary, AB | 587-435-3841 | [hikmahbintyaqub@yahoo.com](mailto:hikmahbintyaqub@yahoo.com) | <https://morarosa.github.io/Portfolio/>

- Standardized project documentation and processes to improve collaboration.

## **Project Manager | New Idea Machine / Expense Trend – Calgary, AB | Nov 2022 – Dec 2023**

- Led cross-functional teams on multi-phase projects from planning through delivery.
- Created project schedules, budgets, and risk assessments.
- Acted as a key liaison between technical teams, stakeholders, and clients.
- Delivered projects under tight deadlines while maintaining quality standards.

## **Manager, Financial Operations | Neo Financial Technologies – Calgary, AB | Jan 2022 – Nov 2022**

- Led operational teams and collaborated with IT on system improvements.
- Streamlined workflows and improved automation, reducing processing backlogs by 30%.
- Gained experience working alongside technical teams on system optimization.

## **Technical Support Agent | Concentrix Technologies – Calgary, AB | Mar 2020 – Jan 2022**

- Diagnosed and resolved technical issues for users across multiple platforms.
- Provided clear technical guidance and escalated complex issues when required.
- Developed strong troubleshooting, communication, and documentation skills.

## **Education**

**Bachelor of Business Administration** – Mount Royal University, Calgary, AB

**Diploma in Aviation** – Mount Royal University, Calgary, AB
